Accessibility

WCAG Compliance

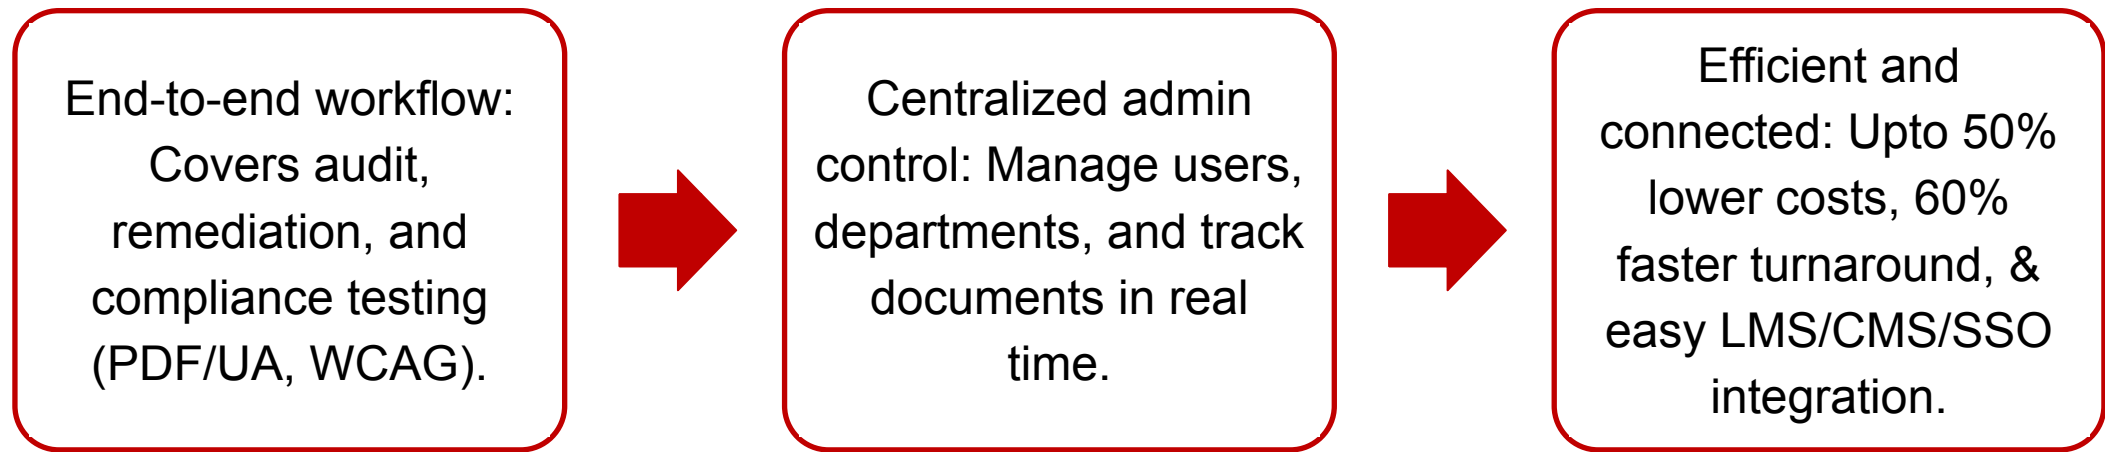

What is PREP?

- Award-winning, cloud-based, AI-enabled platform
- Simplifies & accelerates PDF/document accessibility
- Ensures compliance with accessibility standards (WCAG & PDF/UA standards)

Accessibility with PREP RSP

PREP Remediation Services Platform (RSP) - a secure, cloud-based platform that enables clients to seamlessly submit documents for accessibility remediation.

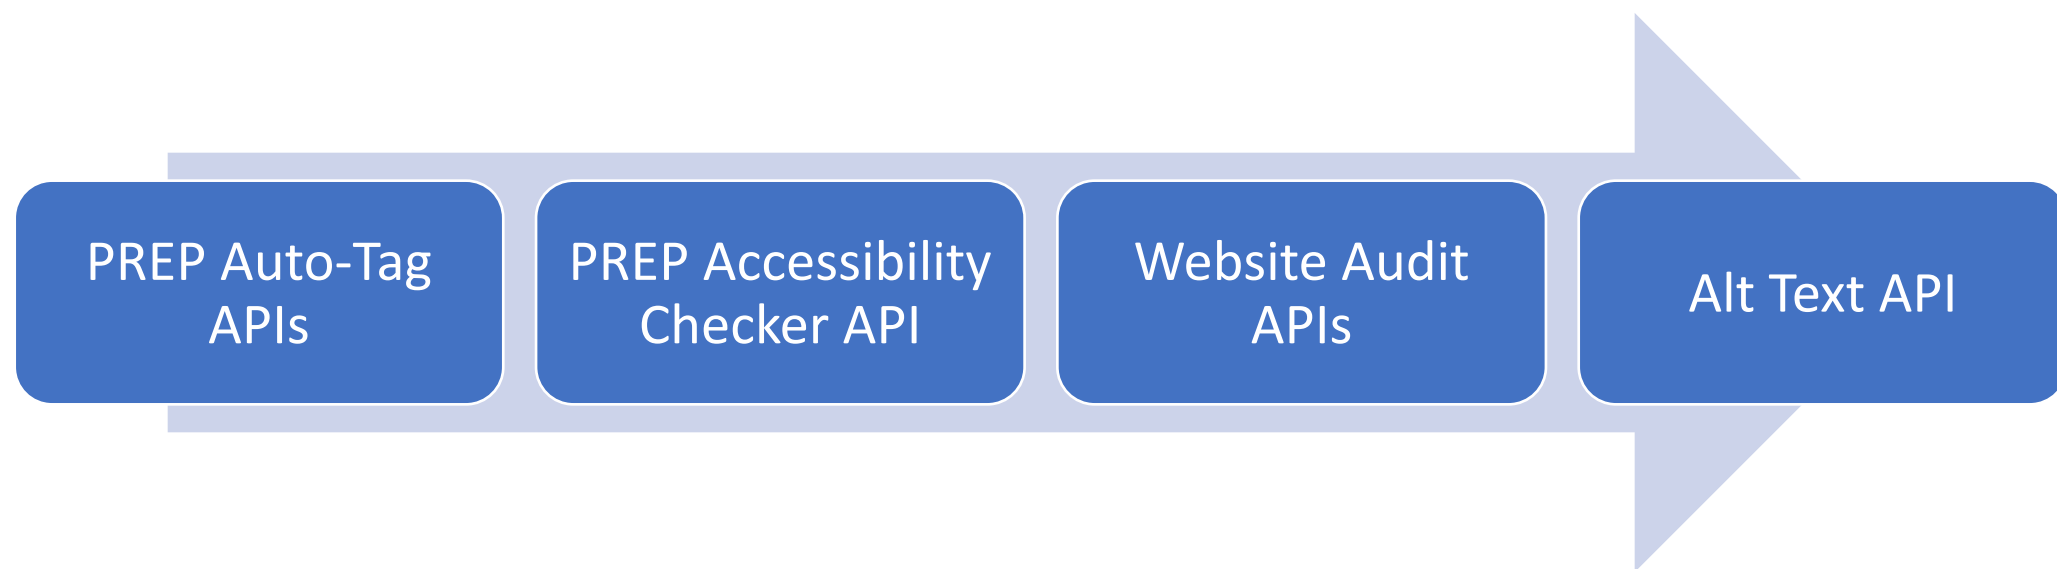

We have partnered with institutions to streamline document accessibility - from SSO login and admin approval to expert remediation and final delivery.

Note - Credits can also be purchased, as needed.

Our APIs

Automate accessibility within your existing workflows — our APIs seamlessly tag PDFs, generate alt text, and run accessibility checks at scale for continuous compliance.

Easy Integrations with LMS, CMS, Okta

- Remediate directly in Canvas, CivicPlus, LMS
- Okta, SSO for secure, instant access
- Built-in WCAG & PDF/UA compliance checks
- Choose in-house or expert remediation path
- Faster delivery of fully accessible content
